Tips: "We need experts in the field who are also good writers. Freelancers who are not experts should know their particular story thoroughly and do background research to get the facts correct. Well-written queries from writers outside the NYC area are especially welcomed. Non-experts should stay away from technical or specific subjects (restoration, price trends). Short profiles of artists or a story of a local museum collection, with good photos, might catch our interest. Editors want to know they are getting something from a writer they cannot get from anyone else. Good writing should be a given, a starting point. After that, it's what you know."

Tips: "First, be a Texan. Then come up with a good idea of interest to home gardeners in this state. Be specific. Stick to feature topics like 'How Alley Gardening Became a Texas Tradition.' Leave topics like 'How to Control Fire Blight' to the experts. High quality photos could make the difference. We would like to add several writers to our group of regular contributors and would make assignments on a regular basis. Fillers are easy to come up with in-house. We want good writers who can produce accurate and interesting copy. Frequent mistakes made by writers in completing an article assignment for us are that articles are not slanted toward Texas gardening, show inaccurate or too little gardening information or lack good writing style. Humor

Publications listed here specialize in gaglines or prose humor, some for readers and others for performers or speakers. Other publications that use humor can be found in nearly every category in this book. Some have special needs for major humor pieces; some use humor as fillers; many others are interested in material that meets their ordinary fiction or nonfiction requirements but also has a humorous slant. The majority of humor articles must be submitted as complete manuscripts on speculation because editors usually can't know from a query whether or not the piece will be right for them.

Buys 48 mss/year. Query with published clips. Pays $110-140.

Tips: "Read contributor notes carefully. Remember where we are published. National and religious sensibilities must be observed. The articles will be read by non-Americans, so avoid American-isms and slang. Write internationally, appeal individually. Stories which are complete with captioned photos and computer disk go to the head of the queue. Send for destination list and produce stories from places where travel companies do *not* send writers for 'familiarization trips.' Short columns, easily researched, complete with one picture, can be produced quickly. We have a prodigious appetite for them and they can be assembled from assorted manufacturers' and companies' press releases. Motoring column must refrain from mention of a single company. Prefer three or more."

We're interested in stories with an international flavor and those that focus on present-day problems. Send material of high literary quality slanted to our editorial requirements. Let the child solve the problem—not some helpful, all-wise adult. No overt moralizing. Nonfiction should be creatively presented—not an array of facts strung together. Beware of being cutesy."

- Ranked as one of the best markets for freelance writers in *Writer's Digest* magazine's annual "Top 100 Markets," January 1994 and as one of the best for fiction writers in its biannual "Fiction 50," June 1994.

Nonfiction: "We need articles on science, technology and nature written by persons with strong backgrounds in those fields. Contributions always welcomed from new writers, especially engineers, scientists, historians, teachers, etc., who can make useful, interesting facts accessible to children. Also writers who have lived abroad and can interpret the ways of life, especially of children, in other countries in ways that will foster world brotherhood. Sports material, biographies and articles of general interest to children. Direct, original approach, simple style, interesting content, not rewritten from encyclopedias. State background and qualifications for writing factual articles submitted. Include references or sources of information. Length: 900 words maximum. Pays $125 minimum. Also buys original party plans for children ages 7-12, clearly described in 300-600 words, including drawings or samples of items to be illustrated. Also, novel but tested ideas in crafts, with clear directions and made-up models. Projects must require only free or inexpensive, easy-to-obtain materials. Especially desirable if easy enough for early primary grades. Also, fingerplays with lots of action, easy for very young children to grasp and to dramatize. Avoid wordiness. We need creative-thinking puzzles that can be illustrated, optical illusions, brain teasers, games of physical agility and other 'fun' activities." Pays minimum $35 for party plans; $20 for crafts ideas; $25 for fingerplays.

Fiction: Unusual, meaningful stories appealing to both girls and boys, ages 2-12. "Vivid, full of action. Engaging plot, strong characterization, lively language." Prefers stories in which a child protagonist solves a dilemma through his or her own resources. Seeks stories that the child ages 8-12 will eagerly read, and the child ages 2-7 will begin to read and/or will like to hear when read aloud (400-900 words). "We publish stories in the suspense/adventure/mystery, fantasy and humor category, all requiring interesting plot and a number of illustration possiblities. Also need rebuses (picture stories 125 words or under), stories with urban settings, stories for beginning readers (100-400 words), sports and horse stories and retold folk tales. We also would like to see more material of 1-page length (300-500 words), both fiction and factual. War, crime and violence are taboo." Pays $120 minimum.

Tips: "We are pleased that many authors of children's literature report that their first published work was in the pages of *Highlights*. It is not our policy to consider fiction on the strength of the reputation of the author. We judge each submission on its own merits. With factual material, however, we do prefer that writers be authorities in their field or people with first-hand experience. In this manner we can avoid the encyclopedic article that merely restates information readily available elsewhere. We don't make assignments. Query with simple letter to establish whether the nonfiction *subject* is likely to be of interest. A beginning writer should first become familiar with the type of material that *Highlights* publishes. Include special qualifications, if any, of author. Write for the child, not the editor."

HOPSCOTCH, The Magazine for Girls, Bluffton News Publishing & Printing Co., P.O. Box 164, Bluffton OH 45817-0164. (419)358-4610. Fax: (419)358-5027. Editor: Marilyn B. Edwards. For reprints pays 100% of the amount paid for original article. Reports in 3 weeks on queries; 2 months on mss. Sample copy for $3. Writer's guidelines, current theme list and needs for #10 SASE.

- Ranked as one of the best markets for fiction writers in *Writer's Digest* magazine's biannual "Fiction 50," June 1994.

Poetry: Free verse, light verse, traditional. "No experimental or obscure poetry." Submit maximum 6 poems. Pays $10-30.

Tips: "Almost all sections are open to freelancers. Freelancers should remember that *HOPSCOTCH* is a bit old-fashioned, appealing to *young* girls (6-12). We cherish nonfiction pieces that have a young girl or young girls directly involved in unusual and/or worthwhile activities. Any piece accompanied by decent photos stands an even better chance of being accepted."

HUMPTY DUMPTY'S MAGAZINE, Children's Better Health Institute, P.O. Box 567, Indianapolis IN 46206-0567. Editor: Janet Hoover. 90% freelance written. "We try not to be overly influenced by an author's credits, preferring instead to judge each submission on its own merit." Bimonthly magazine (monthly March, June, September, December) covering health, nutrition, hygiene, exercise and safety for children ages 4-6. Pays on publication. Publishes ms at least 8 months after acceptance. Buys all rights (but will return one-time book rights if author has name of interested publisher and tentative date of publication). Submit seasonal material 8 months in advance. Reports in 3 months. Sample copy for $1.25. Writer's guidelines for #10 SASE.

Nonfiction: "We are open to nonfiction on almost any age-appropriate subject, but we especially need material with a health theme—nutrition, safety, exercise, hygiene. We're looking for articles that encourage readers to develop better health habits without preaching. Very simple factual articles that creatively teach readers about their bodies. We use simple crafts, some with holiday themes. We also use several puzzles and activities in each issue—dot-to-dot, hidden pictures and other activities that promote following instructions, developing finger dexterity and working with numbers and letters. Submit complete ms with word count and Social Security number. Length: 600 words maximum. Pays 10-20¢/word.

Fiction: "We use some stories in rhyme and a few easy-to-read stories for the beginning reader. All stories should work well as read alouds. Currently we need sports/fitness stories and seasonal stories with holiday themes. We use contemporary stories and fantasy, some employing a health theme. We try to present our health material in a positive light, incorporating humor and a light approach wherever possible. Avoid stereotyping. Characters in contemporary stories should be realistic and up-to-date. Remember, many of our

readers have working mothers and/or come from single-parent homes. We need more stories that reflect these changing times but at the same time communicate good, wholesome values." Submit complete ms with word count and Social Security number. Length: 600 words maximum. Pays 10-20¢/word.

Poetry: Short, simple poems. Pays $15 minimum.

Tips: "Writing for *Humpty Dumpty* is similar to writing picture book manuscripts. There must be a great economy of words. We strive for at least 50% art per page (in stories and articles), so space for text is limited. Because the illustrations are so important, stories should lend themselves well to visual imagery."

JACK AND JILL, Children's Better Health Institute, P.O. Box 567, Indianapolis IN 46206-0567. (317)636-8881. Editor: Steve Charles. 70% freelance written. Magazine published 8 times/year for children ages 7-10. Pays on publication. Publishes ms an average of 8 months after acceptance. Buys all rights. Byline given. Submit seasonal material 8 months in advance. Reports in 10 weeks. May hold material being seriously considered for up to 1 year. "Material will not be returned unless accompanied by SASE with sufficient postage." Sample copy for $1.25. Writer's guidelines for #10 SASE.

Nonfiction: "Because we want to encourage youngsters to read for pleasure and for information, we are interested in material that will challenge a young child's intelligence *and* be enjoyable reading. Our emphasis is on good health, and we are in particular need of articles, stories, and activities with health, safety, exercise and nutrition themes. We try to present our health material in a positive light—incorporating humor and a light approach wherever possible without minimizing the seriousness of what we are saying." Straight factual articles are OK if they are short and interestingly written. "We would rather see, however, more creative alternatives to the straight factual article. For instance, we'd be interested in seeing a health message or facts presented in articles featuring positive role models for readers. Many of the personalities children admire—athletes, musicians, and film or TV stars—are fitness or nutrition buffs. Many have kicked drugs, alcohol or smoking habits and are outspoken about the dangers of these vices. Color slides, transparencies or b&w photos accompanying this type of article would greatly enhance salability." Buys 10-15 nonfiction mss/year. Length: 500-800 words. Pays a minimum of 10¢/word.

Photos: When appropriate, photos should accompany ms. Reviews sharp, contrasting b&w glossy prints. Sometimes uses color slides, transparencies or good color prints. Pays $20 for b&w, $35 for color, minimum of $50 for cover. Buys one-time rights.

Fiction: May include, but is not limited to, realistic stories, fantasy adventure—set in past, present or future. "All stories need a well-developed plot, action and incident. Humor is highly desirable. Stories that deal with a health theme need not have health as the primary subject." Length: 500-800 words (short stories). Pays 10¢/word minimum. Buys 20-25 mss/year.

Fillers: Puzzles (including various kinds of word and crossword puzzles), poems, games, science projects, and creative craft projects. Instructions for activities should be clearly and simply written and accompanied by models or diagram sketches. "We also have a need for recipes. Ingredients should be healthful; avoid sugar, salt, chocolate, red meat and fats as much as possible. In all material, avoid references to eating sugary foods, such as candy, cakes, cookies and soft drinks."

Tips: "We are constantly looking for new writers who can tell good stories with interesting slants—stories that are not full of out-dated and time-worn expressions. Our best authors are writers who know what today's children are like. Keep in mind that our readers are becoming 'computer literate', living in an age of rapidly developing technology. They are exploring career possibilities that may be new and unfamiliar to our generation. They are faced with tough decisions about drug and alcohol use. Many of them are latch-key children because both parents work or they come from single-parent homes. We need more stories and articles that reflect these changing times but that also communicate good, wholesome values. Obtain *current* issues of the magazines and *study* them to determine our present needs and editorial style."

Nonfiction: Biographical, historical, scientific (with spiritual lesson or emphasis). "Junior-age children need to be alerted to the dangers of drugs, alcohol, smoking, etc. They need positive guidelines and believable examples relating to living a Christian life in an ever-changing world." Buys 20-30 mss/year. Send complete ms. Length: 500-800 words. Pays 2-3¢/word.

Fiction: Adventure (with spiritual lesson or application); religious. "We're looking for fiction that presents believable characters working out their problems according to Biblical principles. No fictionalized accounts of Bible stories or events." Buys 60-80 mss/year. Send complete ms. Length: 1,000-1,500 words. Pays 2-3¢/word.

Poetry: Free verse, light verse. Buys 30-40 mss/year. Pays 20¢/line.
Fillers: Anecdotes (with spiritual emphasis). Buys 15-20/year. Length: 200 words maximum. Pays 2-3¢/word.
Tips: "We like to receive stories showing contemporary children positively facing today's world. These stories show children who are aware of their world and who find a moral solution to their problems through the guidance of God's Word. They are not 'super children' in themselves. They are average children learning how to face life through God's help. We tend to get settings in stories that are out of step with today's society. We will tend to turn more and more to purely contemporary settings unless we are using a historical or biographical story. We will have the setting, characters and plot agree with each other in order to make it more believable to our audience."

Tips: "Reread a manuscript *before* sending it in. Be sure to keep within specified word limits. Study back issues before submitting to learn about the types of material we're looking for. Writing style is paramount. We look for rich, evocative language and a sense of joy or wonder. Remember that you're writing for preschoolers—be age-appropriate but not condescending. A story must hold enjoyment for both parent and child through repeated read-aloud sessions. Remember that we live in a multicultural world. People come in all colors, sizes, physical conditions and have special needs. Be inclusive!"

Stories should have good descriptions, realistic dialogue and a point to make. In a poem, each word must be chosen carefully. Tips: "I prefer a short query, without ms, that makes it clear that an article is interesting. When sending an article, include your telephone number. Don't call us, we'll call you. Many submissions we receive are more like college research papers than feature stories. We like articles in which writers have interviewed kids or scientists, or discovered exciting events with a scientific angle. Library research is necessary; but if that's all

you're doing, you aren't giving us anything we can't get ourselves. If your story needs a bibliography, chances are, it's not right for us."

TOUCH, P.O. Box 7259, Grand Rapids MI 49510. Editor: Joanne Ilbrink. 80% freelance written. Prefers to work with published/established writers. Nonfiction: How-to (crafts girls can make easily and inexpensively); informational (write for issue themes); humor (need much more); inspirational (seasonal and holiday); interview; multicultural materials; travel; personal experience (avoid the testimony approach); photo feature (query first). "Because our magazine is published around a monthly theme, requesting the letter we send out twice a year to our established freelancers would be most helpful. We do not want easy solutions or quick character changes from bad to good. No pietistic characters. Constant mention of God is not necessary if the moral tone of the story is positive. We do not want stories that always have a good ending." Buys 36-45 unsolicited mss/year. Submit complete ms. Length: 100-1,000 words. Pays 2½-5¢/word, depending on the amount of editing.

Photos: Purchased with or without ms. Reviews 5×7 or 8×10 clear b&w glossy prints. Appreciate multicultural subjects. Pays $20-50 on publication.

Fiction: Adventure (that girls could experience in their hometowns or places they might realistically visit); humorous; mystery (believable only); romance (stories that deal with awakening awareness of boys are appreciated); suspense (can be serialized); religious (nothing preachy). Buys 30 mss/year. Submit complete ms. Length: 300-1,000 words. Pays 2½-5¢/word.

Poetry: Free verse, haiku, light verse, traditional. Buys 10/year. Length: 30 lines maximum. Pays $5-15 minimum.

Fillers: Puzzles, short humor, cartoons. Buys 3/issue. Pays $7-15.

Tips: "Prefers not to see anything on the adult level, secular material or violence. Writers frequently oversimplify the articles and often write with a Pollyanna attitude. An author should be able to see his/her writing style as exciting and appealing to girls ages 7-14. The style can be fun, but also teach a truth. The subject should be current and important to *Touch* readers. We would like to receive material that features a multicultural slant."

TURTLE MAGAZINE FOR PRESCHOOL KIDS, Children's Better Health Institute, P.O. Box 567, Indianapolis IN 46206-0567. (317)636-8881. Editor: Elizabeth A. Rinck. 90% freelance written. Bimonthly magazine (monthly March, June, September, December). General interest, interactive magazine with the purpose of helping preschoolers develop healthy minds and healthy bodies. Pays on publication. May hold mss for up to 1 year before acceptance/publication. Byline given. Buys all rights. Submit seasonal/holiday material 8 months in advance. Reports in 10 weeks. Sample copy for $1.25. Writer's guidelines for #10 SASE.

Nonfiction: "Uses very simple science experiments. Would like to see some short, simple nature articles—especially interested in subjects of gardening and environmental awareness."

Fiction: Fantasy, humorous, realistic stories. All should have single-focus story lines and work well as read-alouds. "Most of the stories we use will have a character-building bent, but they should not be preachy or overly moralistic. We are in constant need of stories that will help a preschooler grow to a greater appreciation of his/her body and what it can do; stories that encourage active, vigorous play; stories that teach fundamental lessons about good health without being too heavy-handed. We're no longer buying many stories about 'generic' turtles, as we now have PokeyToes, our own turtle character. All stories should 'move along' and lend themselves well to illustration. Writing should be energetic, enthusiastic and creative—like preschoolers themselves."

Poetry: We're especially looking for action rhymes to foster creative movement in preschoolers. We also use original finger plays, stories in rhyme and short verse.

Tips: "We are trying to include more material for our youngest readers. We'd like to see some well-executed ideas for teaching basic concepts to 2- and 3-year-olds. We're open to counting and alphabet stories, but they must be handled in a new, fresh way. All material must first be entertaining; otherwise all efforts to teach will be wasted."

Tips: "We are a magazine for active duty and retired military families. Our editorial attempts enthusiastically to reflect that. Our ideal contributor is a military family member who can write. However, I'm always impressed by a writer who has analyzed the market and can suggest some possible new angles for us. Sensitivity to military issues is a must for our contributors, as is the ability to write good personality profiles and/or do thorough research about military family life. We don't purchase household hints, historical articles, poetry, WW II-era material or parenting advice that is too personal and limited only to the writer's own experience."

One error means rejection. We will work with authors over the phone or by letter, tell them if their ideas have merit for an acceptable article, and help them fine-tune their work. I Was There is a good place for freelancers to start. Vietnam features, if carefully researched and art heavy, will always get a careful look. Combat reports, again, with good art, are number one in our book and stand the best chance of being accepted. Military unit reports from around the world are well received as are law enforcement articles (units, police in action). If you write for us, be complete and factual; pros read *Soldier of Fortune*, and are *very* quick to let us know if we (and the author) err. We will be Operation Desert Storm-oriented for years to come, in terms of first-person accounts and incisive combat reports. Read a current issue to see where we're taking the magazine in the 1990s."

These publications promote reader awareness of the natural environment, wildlife, nature preserves and ecosystems. Many of these "green magazines" also concentrate on recycling and related issues. They do not publish recreation or travel articles except as they relate to conservation or nature. Other markets for this kind of material can be found in the Regional; Sports; and Travel, Camping and Trailer categories, although magazines listed there require that nature or conservation articles be slanted to their specialized subject matter and audience. Some juvenile and teen publications also buy nature-related material for young audiences. For more information on recycling publications, turn to the Resources and Waste Reduction section in Trade.

NEW JERSEY REPORTER, A Journal of Public Issues, The Center for Analysis of Public Issues, 16 Vandeventer Ave., Princeton NJ 08542. (609)924-9750. Fax: (609)924-0363. • This magazine is using more freelance writing now than ever before.

Nonfiction: Book excerpts, exposé, interview/profile, opinion. "We like articles from specialists (in planning, politics, economics, corruption, etc.)—particularly if written by professional journalists—but we reject stories that do not read well because of jargon or too little attention to the actual writing of the piece. Our magazine is interesting as well as informative." Buys 18-25 mss/year. Query with published clips. Length: 1,800-4,500 words. Pays $100-500.
Tips: "Queries should be specific about how the prospective story is an issue that affects or will affect the people of New Jersey and its government. The writer's résumé should be included. Stories—unless they are specifically meant to be opinion—should come to a conclusion but avoid a 'holier than thou' or preachy tone. Allegations should be scrupulously substantiated. Our magazine represents a good opportunity for

freelancers to acquire great clips. Our publication specializes in longer, more detailed, analytical features. The most frequent mistake made by writers in completing an article for us is too much personal opinion versus reasoned advocacy. We are less interested in opinion than in analysis based on sound reasoning and fact. *New Jersey Reporter* is a well-respected publication, and many of our writers go on to nationally respected newspapers and magazines."

Regional

Many regional publications rely on staff-written material, but others accept work from freelance writers who live in or know the region. Some of these magazines are among the bestselling magazines in a particular area and are read carefully, so writers must be able to supply accurate, up-to-date material. The best regional publication to target with your submissions is usually the one in your hometown, whether it's a city or state magazine or a Sunday supplement in a newspaper. Since you are familiar with the region, it is easier to propose suitable story ideas.

Listed first are general interest magazines slanted toward residents of and visitors to a particular region. Next, regional publications are categorized alphabetically by state, followed by Canada. Publications that report on the business climate of a region are grouped in the regional division of the Business and Finance category. Recreation and travel publications specific to a geographical area are listed in the Travel, Camping and Trailer section. Keep in mind also that many regional publications specialize in specific areas, and are listed according to those sections. Regional publications are not listed if they only accept material from a select group of freelancers in their area or if they did not want to receive the number of queries and manuscripts a national listing would attract. If you know of a regional magazine that is not listed, approach it by asking for writer's guidelines before you send unsolicited material.

"No articles better suited to a national or special interest publication." Buys 100 mss/year. Query with published clips. Length: 1,500-2,000 words. Pays $500/1,000 (Canadian).
Tips: "A phone call to our associate editor is the best way to assure that queries receive prompt attention. Once a query interests me the writer is assigned a detailed 'treatment' of the proposed piece which is used to determine viability of story. We will be concentrating on more issue-type stories with good, solid fact-researched base, also doing more fluffy pieces—best and worst of Ottawa—that sort of stuff. Harder for out-of-town writers to furnish. The writer should strive to inject a personal style and avoid newspaper-style reportage. *Ottawa Magazine* also doesn't stoop to boosterism and points out the bad along with the good. Good prospects for US writers are interiors (house and garden type), gardening (for Northern climate), leisure/lifestyles. Reprints OK."

of life, all races and ethnic backgrounds, all classes, all religious and political affiliations, and so on. They are very diverse, and many live in far-flung rural areas or small towns; for some of them, our magazines are the primary source of contact with gay life, in some cases the only support for their gay identity. Our readers are very loyal and save every issue. We return that loyalty by trying to reflect their interests—for instance, by striving to avoid the exclusively big-city bias so common to national gay publications. So bear in mind the diversity of the audience when you write."

Religious

Religious magazines focus on a variety of subjects, styles and beliefs. Many are publishing articles relating to current topics such as AIDS, cults, or substance abuse. Fewer religious publications are considering poems and personal experience articles, but many emphasize special ministries to singles, seniors or other special interest groups. Such diversity makes reading each magazine essential for the writer hoping to break in. Educational and inspirational material of interest to church members, workers and leaders within a denomination or religion is needed by the publications in this category. Publications intended to assist professional religious workers in teaching and managing church affairs are classified in Church Administration and Ministry in the Trade section. Religious magazines for children and teenagers can be found in the Juvenile and Teen and Young Adult classifications. Other religious publications can be found in the Ethnic/Minority section as well.

Tips: "Research articles carefully. Superficial articles are immediately recognizable; they cannot be disguised by big words or professional jargon. Writers need not have personally experienced everything they write about, but they must have done careful research. Also, what our readers want are new solutions to recognized problems; be specific. If a writer doesn't have any, he or she should try another subject. Section most open to freelancers is feature articles on issues of faith or Christian living."

Tips: "A display of creativity which expresses a biblical world view without clichés or cheap shots at non-Christians is the ideal. We are known as one of the most avant-garde magazines in the Christian market, yet attempt to express orthodox beliefs in language of the '90s. *Any* writer who does this may well be published by *Cornerstone*. Creative fiction is begging for more Christian participation. We anticipate such contributions gladly. Tips: "We look for someone who is clever, on our wave length, and has some savvy about the evangelical church. We are very picky and highly selective. The writer has a better chance of breaking in with our publication with short articles and fillers since we are a bimonthly publication with numerous regular features and the magazine is only 36 pages. The most frequent mistake made by writers is that they do not understand satire. They see we are a humor magazine and consequently come off funny/cute (like *Reader's Digest*) rather than funny/satirical (like *National Lampoon*)."

Tips: "Seasonal material will get a second look (won't be rejected so easily). Write an attention grabbing lead followed by an article that says something worthwhile. Relate the lead to some of the universal needs of the reader—promise in that lead to help the reader in some way. Lack of SASE brands author as a nonprofessional; I seldom even bother to read the script." Prefers non-justified righthand margin.

GUIDEPOSTS MAGAZINE, 16 E. 34th St., New York NY 10016-4397. Editor: Fulton Oursler, Jr. 30% freelance written. Estab. 1945. Publishes ms an "indefinite" number of months after acceptance. Pays 25% kill fee for assigned articles. "Most of our stories are ghosted articles, so the writer would not get a byline unless it was his/her own story." Buys all rights and second serial (reprint) rights. Reports in 1-2 months.
Nonfiction and Fillers: Articles and features should be written in simple, anecdotal style with an emphasis on human interest. Short mss of approximately 250-750 words (pays $50-200) considered for such features as Quiet People and general one-page stories. Address short items to Colleen Hughes. For full-length mss, 750-1,500 words, pays $200-400. All mss should be typed, double-spaced and accompanied by SASE. Annually awards scholarships to high school juniors and seniors in writing contest. Buys 40-60 unsolicited mss/year. Pays expenses of writers on assignment.
Tips: "Study the magazine before you try to write for it. Each story must make a single spiritual point. The freelancer would have the best chance of breaking in by aiming for a one- or two-page article. Sensitively written anecdotes are extremely useful. And it is much easier to just sit down and write them than to have to go through the process of preparing a query. They should be warm, well written, intelligent and upbeat. We like personal narratives that are true and have some universal relevance, but the religious element does not have to be driven home with a sledge hammer. A writer succeeds with us if he or she can write a true article in short-story form with scenes, drama, tension and a resolution of the problem presented."

Tips: "The best way to break into our magazine is to send a well-written manuscript that looks at the Christian faith in a fresh way. Standard stories and sermon illustrations are immediately rejected. We very much want to find new writers and welcome good material. We are particularly interested in meditations based on Old Testament characters and stories. Good repeat meditations can lead to work on longer assignments for our other publications, which pay more. A writer who can deal concretely with everyday situations, relate them to the Bible and spiritual truths, and write clear, direct prose should be able to write for *The Upper Room*. We want material that provides for more interaction on the part of the reader—meditation suggestions, journaling suggestions, space to reflect and link personal experience with the meditation for the day."

Retirement

Retirement magazines have changed to meet the active lifestyles of their readers and editors dislike the kinds of stereotypes people have of the over-50 age group. More people are retiring in their 50s, while others are starting a business or traveling and pursuing hobbies. These publications give readers specialized information on health and fitness, medical research, finances and other topics of interest, as well as general articles on travel destinations and recreational activities.

Send short story or typed ms with rights for sale noted and information about when and where story previously appeared. See *Intimacy/Black Romance*.
Fiction: "This is our most romantic magazine of the five. We use one longer story between 20-24 pages for this book, and sometimes we feature it on the cover. Save your harsh, sleazy stories for another magazine. Give us your softest, dreamiest, most imaginative, most amorous story with a male love interest we can't help but fall in love with. Make sure your story has body and not just bodies. Our readers love romance, but they also require substance."
Tips: "Please request a sample and guidelines before submitting. Enclose a 9×12 SASE with 5 first-class stamps."

BRONZE THRILLS, Sterling/McFadden, 5th Floor, 233 Park Ave. S., New York NY 10003. (212)780-3500. Fax: (212)780-3522. Editor: Tonia Shakespeare. Estab. 1982. See *Intimacy/Black Romance*.
Fiction: "Stories can be a bit more extraordinary and uninhibited than in the other magazines but still they have to be romantic. For example, we might buy a story about a woman who finds out her husband is a transsexual in *Bronze Thrills*, but not for *Jive* (our younger magazine). The stories for this magazine tend to have a harder, more adult edge of reality than the others."

INTIMACY/BLACK ROMANCE, Sterling/McFadden, 5th Floor, 233 Park Ave. S., New York NY 10003. (212)780-3500. Fax: (212)780-3522. Editor: Tonia Shakespeare. 100% freelance written. Tips: "I still get excited when I read a ms by an unpublished writer whose use of language is magical and fresh. I'm always looking for that diamond in the fire. Send us your *best* shot. Writers who are careless, sloppy and ungrammatical are an immediate turn-off for me. Please do your homework first. Is it the type of story we buy? Is it written in ms format? Does it make one want to read it?"

JIVE, Sterling/McFadden, 5th Floor, 233 Park Ave. S., New York NY 10003. (212)780-3500. Fax: (212)780-3555. Editor: Tonia Shakespeare. 100% freelance written. Eager to work with new/unpublished writers. Bimonthly magazine of romance and love. Estab. 1982. Circ. 100,000. Pays on publication. Publishes ms an average of 2 months after acceptance. Byline given on articles only. Buys all rights. Submit seasonal material 6 months in advance. Reports in 2 months on queries; 6 months on mss. Sample copy for 9×12 SASE with 5 first-class stamps. Free writer's guidelines.
Nonfiction: How-to (relating to romance and love) and feature articles on any aspect of relationships. "We like our articles to have a down-to-earth flavor. They should be written in the spirit of sisterhood, fun and creativity. Come up with an original idea our readers may not have thought of but will be dying to try out." Buys 100 mss/year. Query with published clips or send complete ms. Length: 3-5 typed pages. Pays $100.
Columns/Departments: Fashion, health, beauty articles accepted. Length: 3-5 pages.
Fiction: Confession and romance. "Stories that are too graphic and lack romance are unacceptable. However, all stories must contain one or two love scenes. Love scenes should allude to sex—romantic, not lewd." Buys 300 mss/year. Send complete ms (4,000-5,000 words). Pays $75-100.
Tips: "We are leaning toward more romantic writing styles as opposed to the more graphic stories of the past. Our audience is largely black teenagers. The stories should reinforce Black pride and should be geared

toward teenage issues. Our philosophy is to show our experiences in as positive a light as possible without promoting any of the common stereotypes that are associated with Black men, lovemaking prowess, penile size, etc. Stereotypes of any kind are totally unacceptable. The fiction section which accepts romance stories and confession stories is most open to freelancers. Also, our special features section is very open. We would also like to see stories that are set outside the US (perhaps they could be set in the Caribbean, Europe, Africa, etc.) and themes that are reflective of things happening around us in the 90s—abortion, AIDS, alienation, surrogate mothers, etc. But we also like to see stories that transcend our contemporary problems and can give us a moment of pleasure, warmth, joy and relief. The characters should be anywhere from teenage to 30s but not the typical 'country bumpkin girl who was turned out by a big city pimp' type story. Please, writers who are not Black, research your story to be sure that it depicts Black people in a positive manner. Do not make a Black character a caricature of a non-Black character. Read contemporary Black fiction to ensure that your dialogue and speech idioms are natural to the Black vernacular."

Rural

Readers may be conservative or liberal, but these publications draw them together with a focus on rural lifestyles. Surprisingly, many readers are from urban centers who dream of or plan to build a house in the country.

ALBERTA FARM AND RANCH, Alberta's Foremost Rural Magazine, North Hill Publications, 4000 19th St. NE, Calgary, Alberta T2E 6P8 Canada. (403)250-6633. Fax: (403)291-0502. No non-relevant articles or articles not of interest to rural Albertans." Buys 20-30 mss/year. Query with published clips. Length: 1,000-2,000 words. Pays $50-200 for assigned articles; $50-100 for unsolicited articles.

Photos: Reviews 4×6 prints. Offers $5-10/photo. Captions and identification of subjects required.
Columns/Departments: "Columnists work on annual contracts only."
Tips: "While *AF&R* seldom accepts unsolicited manuscripts, we always encourage writers to send in queries before going to the time and expense of completing a story. The best way to break into our magazine is with a unique story idea with specific interest to rural Albertans. Stories looking at unique personalities, insightful material on age-related issues and stories of issues concerning the family tend to fill most pages. For new writers trying to solicit their material with little publishing experience, I suggest the submission of typed mss in lieu of tearsheets. Caution: the fastest way to get a rejection is to spell words incorrectly or glaring grammatical errors. Also, superficial stories that do not entice reading or leave extensive informational gaps tend to be overlooked. I would rather see penned-in corrections than errors left unchecked."

Tips: "We have redesigned, downsized our publication, but upgraded our paper stock to a white newsprint. Our 10×12¼ publication is now stitched and trimmed. We now, though, have less space for freelance articles. They need to be concise and *useful* for our readers, tips, how-to's, etc., preferred over humor. We no longer use *fiction*."

Wide range of topics possible, from energy-related subjects to little-known travel destinations to unusual businesses located in areas served by consumer-owned electric utilities. "About half of our readers are rural and small town residents; others are urban and suburban. Topics with an obvious 'big-city' focus not accepted. Nostalgic, dripping sentimental pieces rejected out of hand." Buys 30-50 mss/yr. Length 800-2,000 words. Pays $140-400, quality photos may increase upper pay limit for "polished stories with impact."

Magazine is repositioning as regional four-color publication and will cover a wider range of topics. Look at a recent copy. Hard science fiction is especially in demand, but any such story must be based on a *plausible* extrapolation from real science. Nonfiction: Illustrated technical articles dealing with subjects of not only current but future interest, i.e., topics at the present frontiers of research whose likely future developments have implications of wide interest. Buys about 13 mss/year. Query. Length: 5,000 words. Pays 6¢/word.

Fiction: "Basically, we publish science fiction stories. That is, stories in which some aspect of future science or technology is so integral to the plot that, if that aspect were removed, the story would collapse. The science can be physical, sociological or psychological. The technology can be anything from electronic engineering to biogenetic engineering. But the stories must be strong and realistic, with believable people doing believable things—no matter how fantastic the background might be." Buys 60-100 unsolicited mss/year. Send complete ms of short fiction; query about serials. Length: 2,000-80,000 words. Pays 4¢/word for novels; 5-6¢/word for novelettes; 6-8¢/word for shorts under 7,500 words; $450-600 for intermediate lengths.

Tips: "In query give clear indication of central ideas and themes and general nature of story line—and what is distinctive or unusual about it. We have no hard-and-fast editorial guidelines, because science fiction is such a broad field that I don't want to inhibit a new writer's thinking by imposing 'Thou Shalt Not's.' Besides, a really good story can make an editor swallow his preconceived taboos. I want the best work I can get, regardless of who wrote it—and I need new writers. So I work closely with new writers who show definite promise, but of course it's impossible to do this with *every* new writer. No occult or fantasy."

For tips or hints, the best, of course, is to read the magazine! The second best is to at least read our guidelines, and the last tip is to try to present us with a horror/mystery/fantasy or science fiction story that is fresh, original, and entertaining. If the story entertains the editors

here, we'll buy it so our *readers* can enjoy it and be entertained by it as well."

Please do *NOT* send fiction! Nonfiction only please! A writer can best break in to *Starlog* by getting an unusual interview or by *out-thinking* us and coming up with something *new* on a current film or book. We are always looking for *new* angles on *Star Trek: The Next Generation*, *Deep Space Nine*, *Star Wars*, the original *Star Trek, Doctor Who* and seeking features on such series as *Starman, Beauty & the Beast, Lost in Space, Space 1999, Battlestar Galactica, The Twilight Zone, The Outer Limits*. Know your subject before you try us. Most full-length major assignments go to freelancers with whom we're already dealing. Sports

A variety of sports magazines, from general interest to sports medicine, are covered in this section. For the convenience of writers who specialize in one or two areas of sport and outdoor writing, the publications are subcategorized by the sport or subject matter they emphasize. Publications in related categories (for example, Hunting and Fishing; Archery and Bowhunting) often buy similar material. Writers should read through this entire section to become familiar with the subcategories. Publications on horse breeding and hunting dogs are classified in the Animal section, while horse racing is listed here. Publications dealing with automobile or motorcycle racing can be found in the Automotive and Motorcycle category. Markets interested in articles on exercise and fitness are listed in the Health and Fitness section. Outdoor publications that promote the preservation of nature, placing only secondary emphasis on nature as a setting for sport, are in the Nature, Conservation and Ecology category. Regional magazines are frequently interested in sports material with a local angle. Camping publications are classified in the Travel, Camping and Trailer category.

Photos: Purchased as package with ms; 5×7 minimum. Pays $100 for cover chromes, 35mm or larger.
Tips: "Subject matter is more important than style—that's why we have editors and copy pencils. Good b&w photos are of primary importance. We staff-write our shorter pieces."

BOWHUNTER, The Number One Bowhunting Magazine, Cowles Magazines, 6405 Flank Dr., Harrisburg PA 17112-8200. (717)657-9555. Fax: (717)657-9552. Editor/Publisher: M.R. James. Editorial Director: Dave Canfield. Contact: Richard Cochran, Managing Editor. 85% freelance written. Bimonthly magazine (with two special issues) on hunting big and small game with bow and arrow. "We are a special interest publication, produced by bowhunters for bowhunters, covering all aspects of the sport. Material included in each issue is designed to entertain and inform readers, making them better bowhunters." Estab. 1971. Circ. 180,000. **Pays on acceptance.** Publishes ms an average of 10-12 months after acceptance. Byline given. Kill fee varies. Buys first North American serial and one-time rights. Submit seasonal material 8 months in advance. Reports in 1 month on queries; 5 weeks on mss. *Writer's Market* recommends allowing 2 months for reply. Sample copy for $2. Free writer's guidelines.
Nonfiction: General interest, how-to, interview/profile, opinion, personal experience, photo feature. "We publish a special 'Big Game' issue each Fall (September) but need all material by mid-March. Our other annual publication, *Whitetail Bowhunter*, is staff written or by assignment only. We don't want articles that graphically deal with an animal's death. And, please, no articles written from the animal's viewpoint." Buys 100 plus mss/year. Query. Length: 250-2,000 words. Pays $500 maximum for assigned articles; $75-500 for unsolicited articles. Sometimes pays expenses of writers on assignment.
Photos: Send photos with submission. Reviews 35mm and 2¼×2¼ transparencies and 5×7 and 8×10 prints. Offers $50-250/photo. Captions required. Buys one-time rights.

Columns/Departments: Would You Believe (unusual or offbeat hunting experiences), 250-1,000 words. Buys 6-8 mss/year. Send complete ms. Pays $100-200.
Tips: "A writer must know bowhunting and be willing to share that knowledge. Writers should anticipate *all* questions a reader might ask, then answer them in the article itself or in an appropriate sidebar. Articles should be written with the reader foremost in mind; we won't be impressed by writers seeking to prove how good they are—either as writers or bowhunters. We care about the reader and don't need writers with 'I' trouble. Features are a good bet because most of our material comes from freelancers. The best advice is: Be yourself. Tell your story the same as if sharing the experience around a campfire. Don't try to write like you think a writer writes."

BOWHUNTING WORLD, Ehlert Publishing Group, Suite 600, 601 Lakeshort Parkway, Minnetonka MN 55305-5215. (612)476-2200. Fax: (612)476-8065. Editor: Mike Stroudlaud. Sample copy for $3 and 9×12 SAE with 10 first-class stamps. Free writer's and photographers guidelines.
Nonfiction: Hunting adventure, scouting and hunting how-to features (primarily from a first-person point of view), interview/profile pieces, historical articles, humor, do-it-yourself pieces. Buys 60 mss/year. Query or send complete ms. Length: 1,500-3,000 words. Pays from under $200 to over $500.
Photos: Send photos with submission. Reviews 35mm transparencies and b&w or color prints. Captions required. Buys one-time rights as part of package with ms. Send for separate photo guidelines. "We will also accept proof sheets and negs, returning any photos we do print and use to the author."
Tips: "We look for a combination of good writing and good information. Although we've expanded our focus in recent years to include all North American big and small game typically hunted with bow and arrow, nearly half the articles we buy are about bowhunting for deer. Many freelancers are submitting slides only because that allows magazines to reproduce photos in either b&w or color. Our experience shows that detail is lost converting the slides and that we typically buy additional freelance color to support the article. For that reason, we now encourage authors with access to high quality, b&w print developing services to send b&w illustrations with their packages."

We're especially attracted to articles with a new angle, fresh or difficult-to-get information. We go after the latest in health, nutrition and fitness research, or reports about lesser-known women in sports who are on the threshold of greatness. We also present profiles of the best athletes and teams. We want the profiles to give insight into the person as well as the athlete. We have a cadre of writers whom we've worked with regularly, but we are always looking for new writers."

Nonfiction: "We are looking for informative, down-to-earth stories about hunting, fishing, trapping, dogs, camping, boating, conservation and related subjects. Nostalgic articles are also used. Many of our stories are 'how-to' and should appeal to small-town and rural readers who are true outdoorsmen. Some recent articles have told how to train a gun dog, catch big-water catfish, outfit a bowhunter and trap late-season muskrat. We also use personal experience stories and an occasional profile, such as an article about an old-time trapper. 'Where-to' stories are used occasionally if they have broad appeal." Length: 1,500-3,000 words. Pays $75-150 depending upon quality, photo support, and importance to magazine. Short filler stories pay $35-80.

Tips: "We are always looking for quality articles that tell how to hunt or fish for game animals or birds that are popular with everyday outdoorsmen but often overlooked in other publications, such as catfish, bluegill, crappie, squirrel, rabbit, crows, etc. We also use articles on standard seasonal subjects such as deer and pheasant, but like to see a fresh approach or new technique. Trapping articles, especially instructional ones based on personal experience, are useful all year. Articles on gun dogs, ginseng and do-it-yourself projects are also popular with our readers. An assortment of photos and/or sketches greatly enhances any manuscript, and sidebars, where applicable, can also help."

Features on conservation contributions from big game hunters around the world are open to freelancers. We have enough stories on first-time African safaris and North American hunting. We need South American and Asian hunting stories, plus stories dealing with hunting and conservation."

SALT WATER SPORTSMAN MAGAZINE, 280 Summer St., Boston MA 02210. (617)439-9977. Fax: (617)439-9357. Editor: Barry Gibson. Emphasizes saltwater fishing. 85% freelance written. Nonfiction: How-to, personal experience, technical, travel (to fishing areas). "Readers want solid how-to, where-to information written in an enjoyable, easy-to-read style. Personal anecdotes help the reader identify with the writer." Prefers new slants and specific information. Query. "It is helpful if the writer states experience in salt water fishing and any previous related articles. We want one, possibly two well-explained ideas per query letter—not merely a listing. Good pictures with query often help sell the idea." Buys 100 mss/year. Length: 1,200-1,500 words. Pays $350 and up. Sometimes pays the expenses of writers on assignment. "A good way to break in with us is to submit short (800-1,000 words) where-to/how-to pieces for one of our

Photos: Purchased with or without accompanying ms. Captions required. Uses 5×7 or 8×10 b&w prints and color slides. Pays $1,000 minimum for 35mm, 2¼×2¼ or 8×10 transparencies for cover. Offers additional payment for photos accepted with accompanying ms.

Columns/Departments: Sportsman's Workbench (how to make fishing or fishing-related boating equipment), 100 or more words.

Tips: "There are a lot of knowledgeable fishermen/budding writers out there who could be valuable to us with a little coaching. Many don't think they can write a story for us, but they'd be surprised. We work with writers. Shorter articles that get to the point which are accompanied by good, sharp photos are hard for us to turn down. Having to delete unnecessary wordage—conversation, clichés, etc.—that writers feel is mandatory is annoying. Often they don't devote enough attention to specific fishing information."

Byline given. **Pays on acceptance.** Publishes ms an average of 6 months after acceptance. Buys first rights. Free sample copy. Reports in 2 months.

Nonfiction: Articles on outdoor South Carolina with an emphasis on preserving and protecting our natural resources. "Realize that the topic must be of interest to South Carolinians and that we must be able to justify using it in a publication published by the state department of natural resources—so if it isn't directly about outdoor recreation, a certain plant or animal, it must be somehow related to the environment and conservation. Readers prefer a broad mix of outdoor related topics (articles that illustrate the beauty of South Carolina's outdoors and those that help the reader get more for his/her time, effort, and money spent in outdoor recreation). These two general areas are the ones we most need. Subjects vary a great deal in topic, area and style, but must all have a common ground in the outdoor resources and heritage of South Carolina. Review back issues and query with a one-page outline citing sources, giving ideas for photographs, explaining justification and giving an example of the first two paragraphs." Does not need any column material. Generally does not seek photographs. The publisher assumes no responsibility for unsolicited material. Buys 25-30 mss/year. Length: 1,000-3,000 words. Pays an average of $200-400/article depending upon length and subject matter.

Tips: "We need more writers in the outdoor field who take pride in the craft of writing and put a real effort toward originality and preciseness in their work. Query on a topic we haven't recently done. The most frequent mistakes made by writers in completing an article are failure to check details and go in-depth on a subject."

Fillers: Humorous or thought-provoking pieces (1,500 words) appear in each issue's S.O. Essay department.

Photos: Send photos with submission. Reviews contact sheets, negatives, transparencies. Offers $40-250/cover photo. Captions required. Buys one-time rights.
Tips: "We have the most trouble in getting good submissions on turkey biology and behavior, along with management principles and practices. These subjects *must* be covered in a fashion which is interesting and informative for the average reader. Feature articles are your best bet. Tight, bright pieces which are well-written and well-researched are most likely to be accepted. Queries with an unusual slant or touching on a subject we have not recently covered in detail are good opportunities for first-time writers. We tend to work regularly with a stable of 20 or so writers but are always looking for new talent."

May use some fiction that educates or entertains in a special way. Length: up to 3,000 words. Pays $35 for items, $65 for short fillers of 600-700 words, $200-350 for illustrated features.

Photos: "We want quality photos submitted with features." Art illustrations also acceptable. "We are using more and more inside color illustrations." For b&w, prefer 8×10 glossies, but 5×7 OK. Transparencies of any size are acceptable. No typical hunter-holding-dead-turkey photos or setups using mounted birds or domestic turkeys. Photos with how-to stories must make the techniques clear (example: how to make a turkey call; how to sculpt or carve a bird in wood). Pays $20 minimum for one-time rights on b&w photos and simple art illustrations; up to $75 for inside color, reproduced any size. Covers are negotiated.
Tips: "The writer should simply keep in mind that the audience is 'expert' on wild turkey management, hunting, life history and restoration/conservation history. He/she *must know the subject*. We are buying more third-person, more fiction, more humor—in an attempt to avoid the 'predictability trap' of a single subject magazine."

Free writer's guidelines with SASE.
Nonfiction: "It is necessary that all articles can identify with our coverage area. We are interested in manuscripts from writers who have experienced an interesting fishing or hunting experience. We also publish other informational pieces as long as they relate to our coverage area. We are more interested in articles which tell about the average guy living on beans, guiding his own boat, stalking his game and generally doing his own thing in our part of Western Canada than a story describing a well-to-do outdoorsman traveling by motorhome, staying at an expensive lodge with guides doing everything for him except catching the fish or shooting the big game animal. The articles that are submitted to us need to be prepared in a knowledgeable way and include more information than the actual fish catch or animal or bird kill. Discuss the terrain, the people involved on the trip, the water or weather conditions, the costs, the planning that went into the trip, the equipment and other data closely associated with the particular event. Tips: "Always query before sending a manuscript. We are open to varied types of articles; most however require a strong academic grasp of Asian culture. For those not having this background, we suggest trying a museum review, or interview, where authorities can be questioned, quoted and provide supportive illustrations. We especially desire articles/reports from Asia, with photo illustrations, particularly of a martial art style, so readers can visually understand the unique attributes of that style, its applications, evolution, etc. 'Location' and media reports are special areas that writers may consider, especially if they live in a location of martial art significance."

Tips: "You need not be an expert in a specific martial art to write about it. But if you are not an expert, find one and use his knowledge to support your statements. Also, references to well-known books can help lend credence to the work of unknown writers. Inexperienced writers should begin by writing about a subject they know well. For example, if you study karate, start by writing about karate. Don't study karate for one year, then try to break in to a martial arts magazine by writing about Kung fu, because we already have Kung fu practitioners who write about that."

Pro sports previews 3-4 months ahead of their seasons are also needed. Good short fiction or humorous articles can break in. Expert knowledge of any related subject can bring assignments; any area is open. We consider everything as a potential article, but are turned off by credits, past work and degrees. We have a constant demand for well-written articles on instruction, health and trends in both. Other articles needed are professional sports training techniques, fad diets, tennis and fitness resorts, photo features with aerobic routines. A frequent mistake made by writers is length—articles are too long. When we assign an article, we want it newsy if it's news and opinion if opinion."

Weave spiritual conflicts and prayers into entire manuscript; avoid tacked-on sermons and morals. - Still looking for sparkling humor and adventure stories, filled with mystery, action, discovery, dialogue.

Tips: "Typical topics we cover in a yearly cycle include choices (music, clothes, friends, diet); friend-making skills; school problems (cheating, peer pressure, new school); self-esteem; changes; sibling relationships; divorce; step-families; drugs; and communication. We often buy short fillers, and an author who does not fully understand our needs is more likely to sell with a short-short. Our target age is 10-14. Our most successful writers are those who present stories from the viewpoint of a young teen-ager, written in the active voice. Stories that sound like an adult's sentiments passing through a young person's lips are *not* what we're looking for. Use believable dialogue."

Double check every name, address, phone number, admission charge, hour of operation before mailing in article. Always have two to four sidebars with the story. Do not write something for which you do not have professional color photography. Never ever submit a story to us that is going to another publisher at the time. Always write and send the article only after we respond to your query. Travelers' Advisory—a potpourri of short, interesting and engaging travel items—is the best place to start. Keep to 150 words or less with a couple of slides. All parts of the magazine are open, however. Just be sure you 1)create excitement and 2)deliver maximum information in your manuscript."

Magazines that also use material slanted to women's interests can be found in the following categories: Business and Finance; Child Care and Parental Guidance; Contemporary Culture; Food and Drink; Health and Fitness; Hobby and Craft; Home and Garden; Relationships; Religious; Romance and Confession; and Sports.

Readers relate strongly to where they live and the lifestyle they've chosen. They want to be informed and entertained, and that's just exactly why they subscribe. Readers are busy—not too busy to read—but when they do sit down, they want good writing, reliable information and something that feels like a reward. How-to, humor, personal experience and nostalgia are areas most open to freelancers. Profiles, to a certain degree, are also open. Be accurate and fresh in approach."

- Ranked as one of the best markets for freelance writers in *Writer's Digest* magazine's annual "Top 100 Markets," January 1994 and as one of the best markets for fiction writers in its biannual "Fiction 50," June 1994.

Nonfiction: "*Redbook* addresses young mothers between the ages of 25 and 44. Most of our readers are married with children 12 and under; over 60 percent work outside the home. The articles entertain, educate and inspire our readers to confront challenging issues. Each article must be timely and relevant to *Redbook* readers' lives. Article subjects of interest: social issues, parenting, sex, marriage, news profiles, true crime, dramatic narratives, money, psychology, health. Please enclose sample of previously published work with articles or unsolicited manuscripts. Length: articles, 2,500-3,000 words; short articles, 1,000-1,500 words.

Columns/Departments: "We are interested in stories for the 'A Mother's Story' series offering the dramatic retelling of an experience involving you, your husband or child. (Also done "as told to.") For each 1,500-2,000 words accepted for publication as A Mother's Story, we pay $750. Manuscripts accompanied by a 9×12 SASE, must be signed, and mailed to: A Mother's Story, c/o *Redbook Magazine*. Reports in 6 months. We also need stories for the back page 'Happy Endings' column, stories of about 800 words that, just as the title suggests, end happily. See past issues for samples."
Fiction: "Of the 20,000 unsolicited manuscripts that we receive annually, we buy about 10 or more stories/year. We also find many more stories that are not necessarily suited to our needs but are good enough to warrant our encouraging the author to send others. *Redbook* looks for fresh, well-crafted stories that reflect some aspect of the experiences and interests of our readers; it's a good idea to read several issues to get a feel for what we buy. No unsolicited novels or novellas, please. Payment begins at $1,000 for short stories.
Tips: "Shorter, front-of-the-book features are usually easier to develop with first-time contributors, especially A Mother's Story and Happy Endings. We also buy short takes (250 words) for our You & Your Child opening page—succinct, charming advice-driven items. Most *Redbook* articles require solid research, well-developed anecdotes from on-the-record sources, and fresh, insightful quotes from established experts in a field that pass our 'reality check' test."

Trade, Technical and Professional Journals

Many writers who pick up a *Writer's Market* for the first time do so with the hope of selling an article or story to one of the popular, high-profile consumer magazines likely to be found on newsstands and in bookstores. Many of those writers are surprised to find an entire world of magazine publishing that exists outside the realm of commercial magazines and that they may have never known about—trade journals. Writers who *have* discovered trade journals have found a market that offers the chance to publish regularly in subject areas they find interesting, editors who are typically more accessible than their commercial counterparts and pay rates that rival those of the big-name magazines.

Trade journal is the general term for all publications focusing on a particular occupation or industry. Other terms used to describe the different types of trade publications are business, technical and professional journals. They are read by truck drivers, brick layers, farmers, commercial fishermen, heart surgeons—let's not forget butchers, bakers, and candlestick makers—and just about everyone else working in a trade or profession. Trade periodicals are sharply angled to the specifics of the professions they report on. They offer business-related news, features and service articles that will foster their readers' professional development. A surgeon reads *Cardiology World News* to keep up with developments in cardiac disease and treatment. Readers of *Professional Mariner* are looking for the latest news and information about the shipping trade.

Trade magazine editors tell us their readers are a knowledgeable and highly interested audience. Writers for trade magazines have to either possess knowledge about the field in question or be able to report it accurately from interviews with those who do. Writers who have or can develop a good grasp of a specialized body of knowledge will find trade magazine editors who are eager to hear from them. And since good writers with specialized knowledge are a somewhat rare commodity, trade editors tend, more than typical consumer magazine editors, to cultivate ongoing relationships with writers. If you can prove yourself as a writer who "delivers," you will be paid back with frequent assignments and regular paychecks.

An ideal way to begin your foray into trade journals is to write for those that report on your present profession. Whether you've been selling real estate, managing a grocery store or performing bypass surgery, begin by familiarizing yourself with the magazines that serve your occupation. After you've read enough issues to have a feel for the kinds of pieces they run, approach the editors with your own article ideas. If you don't have experience in a profession but can demonstrate an ability to understand (and write about) the intricacies and issues of a particular trade that interests you, editors will still be willing to hear from you.

Photographs help increase the value of most stories for trade journals. If you can provide photos, mention that in your query or send copies. Since selling photos with a story usually means a bigger paycheck, it is worth any freelancer's while to spend some time developing basic camera skills.

Query a trade journal as you would a consumer magazine. Most trade editors like

INSIDER REPORT

Building a career as a trade magazine freelancer

Linda Leake

Linda Leake majored in dairy science at the University of Wisconsin. Along with that major she took a number of journalism classes, thinking at the time that they might provide her with a skill to fall back on. As it turns out, that training, along with generous doses of self-confidence, talent and drive have provided much more than something to simply "fall back on." They have led to Leake's rewarding and much-loved career as a journalist reporting on the agriculture industry.

Immediately after college, Leake was hired on a short-term basis by the World Dairy Expo to put together a souvenir program for their prestigious, international dairy cattle exposition. But after that first experience with writing for publication, Leake's career took a different turn. She became a certified animal technician and worked for six years as an instructional specialist in a veterinary school in Madison, Wisconsin. An eventual relocation to North Carolina left her unemployed and considering her options. In 1990 she returned to Madison for that year's World Dairy Expo and passed out resumes.

She was not thinking about writing for a living until she met the editor of a dairy industry publication at the Expo who expressed an interest in seeing a freelance submission from Leake.

Leake returned to North Carolina and worked up several pieces about women farmers in her area. She sent one off to the editor of the dairy magazine. "About two days before Christmas, I got a letter in the mail from the magazine," says Leake. "My heart was pounding. I opened the envelope and a big check fell out. 'Dear Linda:' the letter said, 'Thank you so much for the excellent article and pictures. We all enjoyed them so much. Enclosed is a check for the article and your expenses.' The last thing they said was, 'We'll be happy to have any more work that you care to send us.' "

It didn't take Leake long to realize that there were many more agricultural magazines out there—many that she was already familiar with. "I knew what they were, and I knew some of the people, and I just started making phone calls." Since she began, Leake has written for over 20 different periodicals. Her success is due in large part to the professionalism with which she approaches her writing. "I've just made an effort to develop the business and contact as many agriculture publications as I can, to develop a large clientele so I'm not dependent on any one—and so that every time I come up with a good story idea I'll have a market for it."

How does Leake keep the business rolling in? "I try to get out one major piece a week, so I'm constantly on the lookout for story ideas, and when I find something that I think is suitable for a particular publication, I immediately call the editor. I have a good success rate with selling stories that way." Leake will occasionally schedule trips back to Wisconsin or elsewhere and set up interviews with various farmers along the way. Before she takes the trip, she pre-sells the articles. "I plot out my route and then I call the magazines that I think might be suitable, starting with the ones that pay the most," she says. "I tell the editors I'm going to be traveling through a particular area and I've got *this* and *this* and *this* story, then I ask which ones they would like. They take what they like, and if they don't take all of them, I call the next magazine on my list and so on until everything is sold." She splits the trip expenses among all of the magazines that agree to publish the articles.

In freelance journalism, Leake feels she has found her life's work. "I'm definitely going to stick with this," she says. "I like the self-employed lifestyle; I like coming and going as I please; I like doing my own scheduling. I feel this is something that I'll be able to do my whole life. I don't have to do certain types of work that I might not want to do because, God willing, I'll always be able to write. I love my work."

to discuss an article with a writer first and will sometimes offer names of helpful sources. Mention any direct experience you may have in the industry in your cover letter. Send a resume and clips if they show you have some background or related experience in the subject area. Read each listing carefully for additional submission guidelines.

To stay abreast of new trade magazines starting up, watch for news in *Folio* and *Advertising Age* magazines. Another source for information about trade publications is the *Business Publication Advertising Source*, published by Standard Rate and Data Service (SRDS) and available in most libraries. Designed primarily for people who buy ad space, the volume provides names and addresses of thousands of trade journals, listed by subject matter.

Tips: "The best approach is a telephone or written query. Ours is a completely 4-color publication geared to a graphically sophisticated audience, with professional photography and specific information about design solutions, fabrication and management of corporate identity programs. We prefer a case-history approach, but may accept some theoretical articles on the use of corporate identity, the value of signs, etc. Most open are feature stories written for designers (design, fabrication details) or buyers (value, costs, management of national programs). The more specific, the better. The more 'advertorial,' the less likely to be accepted. Unusual design solutions, unusual use of materials and breadth of design scope make stories more of interest."

Avoid direct-buy situations. Stress the distributor's role in promotions. No generalized pieces on print, broadcast or outdoor advertising." Buys 10-12 mss/year. Query with published clips. Payment based on assigned length. "We pay authorized phone, postage, etc."
Photos: State availability of 5×7 b&w photos. Pays "some extra for *original* photos *only*." Captions, model releases and identification of subjects required.
Tips: "The predominant cause of misdirected articles is the fact that many new writers simply don't understand the medium of promotional products, or our target audience—end-users. Writers are urged to investigate the medium a bit before attempting an article or suggesting an idea for one. We can also provide additional leads and suggestions. All articles, however, are specifically geared to promotional products (or premium) use. We need writers who can clearly and closely follow directions."

We're most interested in 'research in action,' application-based articles that show readers how others are using research. In these stories, the writer interviews a research user and their supplier—usually a research company—to profile the project and explain how marketing research was used, what the goals were for the research, and why certain research techniques were used. I would also like to retain stringers to attend various research conventions/gatherings and write reports on them for our magazine."

Nonfiction: "Most articles we buy are of the 'how-to' type. They consist of practical ideas, techniques and advice that readers can use to improve business communication and management. Areas covered: writing, speaking, listening, employee communication, human relations, public relations, interpersonal communication, persuasion, conducting meetings, advertising, marketing, fund raising, telephone techniques, teleconferencing, selling, improving publications, handling conflicts, negotiating, etc. Because half of our subscribers are in the nonprofit sector, articles that appeal to both profit and nonprofit organizations are given top priority." *Short Items:* Articles consisting of one or two brief tips that can stand alone. Length: 40-70 words. *Articles:* A collection of tips or ideas that offer a solution to a communication or management problem or that show a better way to communicate or manage. Examples: "How to produce slogans that work," "The wrong way to criticize employees," "Mistakes to avoid when leading a group discussion," and "5 ways to overcome writer's block." Length: 125-150 words. *Bonus Items:* In-depth pieces that probe one area of communication or management and cover it as thoroughly as possible. Examples: "Producing successful special events," "How to evaluate your newsletter," and "How to write to be understood." Length: 1,300 words. Buys 30-50 mss/year. Pays $15-35 for 40- to 150-word pieces; Bonus Items, $200. Pays the expenses of writers on assignment.

Tips: "Our readers are looking for specific, practical ideas and tips that will help them communicate better both within their organizations and with outside publics. Most ideas are rejected because they are too general or too elementary for our audience. Our style is down-to-earth and terse. We pack a lot of useful information into short articles. Our readers are busy executives and managers who want information dispatched quickly and without embroidery. We omit anecdotes, lengthy quotes and long-winded exposition. The writer has a better chance of breaking in at our publication with short articles and fillers since we buy only six major features (bonus items) a year. We require queries on longer items and bonus items. Writers may submit short tips (40-70 words) without querying. The most frequent mistakes made by writers completing an article for us are failure to master the style of our publication and to understand our readers' needs."

material immediately. Reports in 2 months. Sample copy for 9×12 SAE with 4 first-class stamps.
Nonfiction: "We prefer articles dealing with how to solve problems of specific industries (manufacturers, wholesalers, retailers, service businesses, small hospitals and nursing homes) where contact has been made with key executives whose comments regarding their problems may be quoted. We want problem solving articles, *not* success stories that laud an individual company. We like articles that give the business manager concrete suggestions on how to deal with specific problems—i.e., 'five steps to solve . . .,' 'six key questions to ask when . . .,' and 'four tell-tale signs indicating . . .' Focus is on marketing, economic and technological trends that have an impact on medium- and small-sized businesses, not on the 'giants'; automobile dealers coping with existing dull markets; and contractors solving cost-inventory problems. Will consider material on successful business operations and merchandising techniques." Query or submit complete ms. Length: 2,000-3,000 words. Pays $150-250.
Tips: Query letter should tell "type of business and problems the article will deal with. We specialize in the problems of small (20-100 employees, $800,000-10,000,000 volume) businesses (manufacturing, wholesale, retail and service), plus medium and small healthcare facilities. We are now including nationally known writers in each issue—writers like the Vice Chairman of the Federal Reserve Bank, the US Secretary of the Treasury; names like George Bush and Malcolm Baldridge; titles like the Chairman of the Joint Committee on Accreditation of Hospitals; and Canadian Minister of Export. This places extra pressure on freelance writers to submit very good articles. Frequent mistakes: 1) writing for big business, rather than small, and 2) using language that is too academic."

Tips: "Find a sign shop, or sign company, and take some time to learn the business. The sign business is easily a $5 billion-plus industry every year in the US, and we treat it like a business, not a hobby. If you see a sign that stops you in your tracks, find out who made it; if it's a one-in-10,000 kind of sign, chances are good we'll want to know more. Writing should be factual and avoid polysyllabic words that waste a reader's time. I'll work with writers who may not know the trade, but can write well."
